Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I wish to express my support for the proposed two-storey side extension at 14 Petworth Drive.

The proposal appears to be well proportioned and consistent with the established character of development within Petworth Drive and the surrounding area. A number of similar extensions have been undertaken on comparable properties nearby, including both single-storey and two-storey side additions, demonstrating that this form of development is already an established and accepted feature within the street scene.

In my view the extension would integrate appropriately with the existing dwelling and would not appear out of keeping with the pattern of development in the locality. The scale and siting of the proposal appear appropriate and unlikely to result in any significant adverse impact on neighbouring residential amenity in terms of outlook, privacy or daylight.

The proposal therefore seems consistent with the design and amenity principles of the Mid Sussex District Plan, particularly policies that seek to ensure extensions are sympathetic to the host dwelling and the character of the surrounding area.

For these reasons I support the application and would encourage the Council to grant planning permission.

Kind regards
