Dear Jo,

I have reviewed the Arboricultural Impact Assessment (AIA) for this proposal, and I have also visited the site previously.

I find that provided the measures in the Arboricultural Method Statement (AMS) are adhered to, there should be minimal impact to trees. Those to be removed are category U and category C, therefore not a constraint to development. Therefore, I have no objection.

Please do condition adherence to the Tree Protection measures within the AIA and AMS.

Kind regards

Emma
