| Comments:            | Dear Mr Watt,<br>Although I support the 18 vehicle parking spaces in Bowers Place,<br>can you confirm whether or not kerb stones will be used in the<br>construction of these parking spaces and if so will they be the<br>splayed profile type or another? The reason for raising this<br>question is because if kerb stones were being used, the splayed<br>profile type may save damage caused to vehicles that will use |

these parking spaces, especially those with low ground clearance.
