Subject: Proposed planning of 49 Houses on Wickham Fields, Haywards Heath DMMO 3/22

[REDACTED]
Dear Sir

As a local resident having lived in Gander Hill for 43 years I think the proposed plan to build 49 houses will cause major problems to the area. The extra traffic will cause problems to Gander Hill/College Road as this has now become a rat race to the Station and Sainsburys due to the new parking restrictions in Gander Hill. Previously parked cars were allowed which although caused their own problems did slow the traffic down, and you didnt have to dodge the traffic.

I have walked my dogs in these woods and fields on and off for 43 years, seeing rabbits and deer on my early morning walks. A place to walk in open space so close to the houses is something we should protect.

Our local schools are over subscribed with no spare spaces, why not get the builders to use the money to help improve the facilities for the local community, a playing field for sports would be ideal.

Who would want to live in Haywards Heath the high street is dead, we cannot cope with anymore coffee shops or charity shops,how about the builders improve our high street.

Can they guarantee that the infastructure can cope, Ardingly reservoir was seriously low last year more demand will put more pressure on our water supplies.

Trying to get a doctors appointment takes forever and the A&E department at PRH is overstretched.

Please do not take another green space away.

I strongly object and ask that the application be refused, and that, if it is to be determined that please ask the Planning Committee to consider it rather than under delegated powers, given the significance of the site.
