Description of Proposed Works

Please describe the proposed works

A creation of a layby or one standard car parking space on current public grass verge which is south to Yew Tree Cottage as the property does not have access to a driveway or a garage. The area would be between the telegraph pole and the steps leading up to the side of the property.

We used to rent a car parking space across the road from the Balcombe Estate up to a number of years ago but this is no longer an option.

The front gate of Yew Tree Cottage leads straight on to the road without any pavement. We cannot park in front of the house as this is a busy main road and it is dangerous and on a bend.

To keep within the character of the area, we have been advised that the best material would be a grass grid for the car park space as it will be both durable and in keeping with the natural appearance of the conservation area.

Has the work already been started without consent?

- ☐ Yes
- ☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☒ Yes
- ☐ No

Please provide a description of existing and proposed materials and finishes to be used externally (including type, colour and name for each material)

Type:
Vehicle access and hard standing

Existing materials and finishes:
Grass with a tarmac footpath

Proposed materials and finishes:
Grass and permeable paving grid made of either recycled plastic or concrete as already adopted on the village green in Balcombe which is within the conservation area.

Are you supplying additional information on submitted plans, drawings or a design and access statement?

☒ Yes

☐ No

Is a new or altered pedestrian access proposed to or from the public highway?

☒ Yes

☐ No

Do the proposals require any diversions, extinguishment and/or creation of public rights of way?

☒ Yes

☐ No

If Yes to any questions, please show details on your plans or drawings and state their reference numbers:

Divert the public footpath nearer to the cul-de-sac so that pedestrians can cross the main road. This would be safer as this will give a better field of vision for the pedestrian crossing the road as there is no footpath in front of the house.

Parking

Will the proposed works affect existing car parking arrangements?

☒ Yes

☐ No

If Yes, please describe:

There are no parking arrangements. The road gets congested for any deliveries, bin collections made to the house daily.

Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.
