

Bats

Possible location of integrated bat box such as Habitat 001 integrated bat box or Ibstock enclose bat box. Can be faced in specific brick and self cleaning

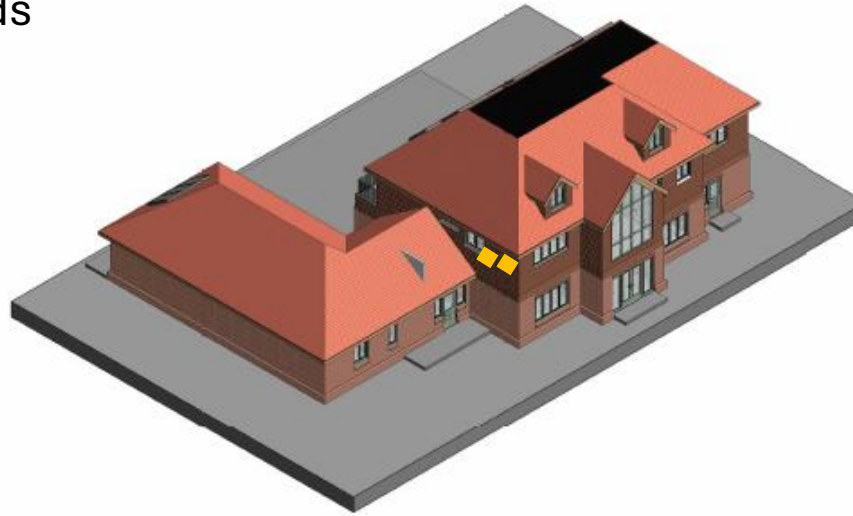

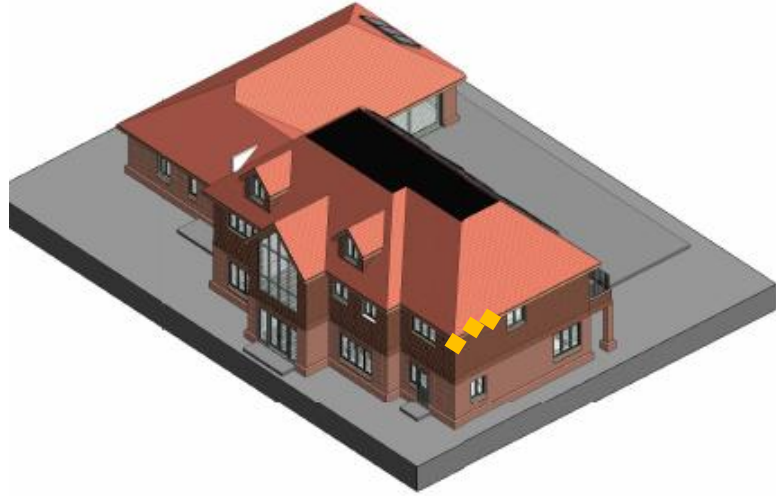

Alternatively, bat access tiles can be installed in the roof tiles under bitumen felt. See plan for possible locations

As part of the licence one/two bat boxes are likely to be required to be installed on a mature tree 3-5m up on a southerly elevation
Suitable boxes include:

- Double improved crevice nest box by the nest box company
- Roost Maternity Bat Box by nest box company or
- Large Multi-Chamber Bat Box

Birds

Possible location for swift bricks that are used by other holes nesting birds such as sparrows, tits and starlings

Boxes such as the S-brick or Schwegler Swift Brick are suitable

Advice on the locating of swift bricks can be found here

https://www.swift-conservation.org/swift_bricks.htm

Alternatively, bird boxes could be installed on mature trees.

Suitable boxes include:

- Schwegler 2GR Nest Box
- Schwegler 2HW Deep Nest Box
- Vivara Pro Seville bird box
- Vivara Pro Woodstone Barcelona Open Nest Box
