Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to this application for a telecom mast because many experts have declared that RFR from these masts is harmful and the cause of many health issues including cancer. Also Telecom companies require council planning permission to install their 5G masts and use safety certificates provided by ICNIRP to endorse this but ICNIRP Do Not Issue certificates so telecoms are self-

certifying. Many certificates have also been issued by Three Uk Ltd which was dissolved in 2015 so this is fraud.

Kind regards
