[REDACTED]

Good afternoon,

We live at [REDACTED]

We have previously objected to applications by the school. Firstly, when they applied to erect floodlights and secondly when they wanted to extend the hours they could use the floodlights during the evening.

We have recently become aware of two new applications (see above).

We are surprised that we did not receive a notification letter about these latest applications.

We wish to raise our objection to any extension of use of floodlights beyond 7 pm.

The use of the floodlights already causes light pollution and noise in the area after dark. Any extension of these hours is simply for the financial gain of the school at the expense of the surrounding environment and its immediate neighbours.

Any hiring out of courts late into the evening will cause extra noise and also potential parking issues to the neighbours. (It is certain that it won't be the pupils using the courts that late at night!) Please use this email as our objection to the two planning applications.

Regards

[REDACTED]
