Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I strongly object to this application. The road cannot cope with more houses and even more cars. The infrastructure is not there to support more buildings. The road is already very dangerous with the amount of traffic using the lane. Cars cannot pass each other (especially bad during school times), drivers are abusive to each other due to the frustration of the narrow lane, and residents are now parking on the green verges where they have never parked before due to lack of parking space. This is a narrow country lane that is not built for the amount of traffic that is being
-----------	--

invited down it. Children walk to and from school from the lane, I fear for their safety. I urge anyone who will decide on this application to visit the lane during term time at school drop off and pick up times. You will see that granting permission to build more houses will contribute to an already highly dangerous situation. Please do not put residents and our children at further risk! This is about far more than someone building houses in our back gardens. The infrastructure is not equipped for these types of planning applications. To reiterate, I very strongly object to this application!

Kind regards
