Hazel (within mixed woodland). Reduce crown by 4m, where overhanging garden.
Amy Livermore**

Permission is sought for the works as described.

The application misdescribed the trees originally; this has now been corrected, with the agreement of the applicant.

The trees form part of a large woodland Order and comprise overgrown hazel understorey, which now extends into the applicant's garden.

Works will, in effect, partially coppice the trees, which is an acceptable woodland practice and will address the overhang issue in the small rear garden.

Permission is recommended.

Decision: Permission
