Subject: 2025.01.28 Re: DM/24/3065

Dear Susan,

Thank you for consulting the flood risk and drainage team on the above application.

We have no objection to the proposed development on drainage grounds.

We have reviewed the information submitted, and due to the change in the development from the previously approved scheme, we recommend the condition below is utilised.

At the detailed design stage, calculations and drainage layouts should be provided to reflect the updated proposal in line with our 'General Drainage Information Guide'.

Condition Recommendations

C18D

The development hereby permitted shall not commence unless and until details of the proposed foul and surface water drainage and means of disposal have been submitted to and approved in writing by the local planning authority. The **building** shall not be occupied or brought into use, until all the approved drainage works have been carried out in accordance with the agreed details.

Reason: To ensure that the proposal is satisfactorily drained and to accord with the NPPF requirements, Policy CS13 of the Mid Sussex Local Plan, Policy DP41 of the Pre-Submission District Plan (2014 - 2031) and Policy ...'z'... of the Neighbourhood Plan.

Best Wishes

Flood Risk and Drainage Team
Estate Services and Building Control
