Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	The proposed car port does not affect me in any way, therefore I am not justified in making any objection to the proposal. In general terms, the more private parking space in the vicinity should be welcome because street parking in this area of Hurstpierpoint is becoming more and more difficult for long-term residents. I would support leaving the cladding in place, though under scrutiny as made of unauthentic material. Although it is not made of wood, as was the original, the job has been very well done and

the facade enhances the building and the High Street
