Dear Anna,

Thank you for re-consulting the Flood Risk and Drainage Team on the above application. We have reviewed the submitted Foul and Surface Drainage Design Strategy by LM Associates and have the following comments:

Further to the Flood Risk and Drainage Team's initial comments dated 26/11/25, the submitted information is insufficient and doesn't meet the minimum requirements as set out in the MSDC Flood Risk and Drainage Information Check List.

The Flood Risk and Drainage Team objects to the proposed development due to insufficient information.

Best Wishes
