Subject: Objection to Proposed 5G Mast Installation at Land Adj. To Rocky Lane, Haywards Heath, West Sussex – Planning Application No.DM/25/1495

Dear Sir/Madam,

I am writing to formally object to the proposed construction of a 5G mobile phone mast at land adjacent to Rocky Lane, Haywards Heath, West Sussex, as outlined in planning application number DM/25/1495

My objection is based on the following key concerns:

1. Health and Safety

There remains significant public concern regarding the long-term health impacts of prolonged exposure to electromagnetic frequencies (EMF), especially those used in 5G technology. While studies are ongoing, many residents feel that the precautionary principle should apply. The mast's proximity to homes, schools, and community centers raises legitimate fears about increased radiation exposure, particularly for vulnerable groups such as children and the elderly.

2. Aesthetic Impact

The proposed mast is wholly out of keeping with the character of the area. At a height of 22.5 meters, it would tower over nearby buildings and trees, becoming a visual eyesore and damaging the local landscape. This is particularly troubling in a residential neighborhood where residents value the visual appeal and integrity of their surroundings.

3. Impact on Property Values and Wellbeing

Numerous studies and surveys indicate that the presence of telecommunications masts can negatively affect property values and the overall perception of a neighborhood. Residents are also concerned about the psychological effects of living in close proximity to such infrastructure, particularly when many questions about long-term health implications remain unanswered.

In light of the above, I respectfully urge the council to reject this planning application and seek alternative locations far removed from residential and community areas, or to delay approval until clearer, independent health guidance is available.

I trust the council will give due weight to the views and well-being of local residents when considering this proposal.

Yours faithfully,

[REDACTED]
