[REDACTED]
Planning Application 13 Meadow Drive , Lindfield

I live opposite and will be directly impacted by this proposed development and wish to express comments as follows.

1. The proposed development at the front of the property will be out of character with the plan to extend outwards in excess of the similar extension next door at No 11.
2. Parking and access concerns for me. The proposed development will remove parking space for the owners who have two vehicles including a business one. Currently, one of the vehicles is regularly parked on the front grass lawn which will not be practicable in the winter months which will now mean parking one or probably both vehicles on the road which will directly impact the access to my driveway and particularly also during construction work too.
- .3. I am not sure about the economic benefits of this proposal, I have not met these new neighbours and they have not introduced themselves to me but this seems to be a couple living alone who for some reason want two extra bedrooms, a gym and an office etc ? This seems to be rather an excessive development.

Yours sincerely
