Dear Mr Ashdown,

I wish to strongly object to the resubmitted application to change the fields to the west of Cuckfield Park into the ridiculously named Beechy Bottom Parkland Reserve under the guise of it being a rewilding project. It already has a wealth of natural flora and fauna which will be disrupted and the development will have a negative visual impact especially to us in the adjoining Historic Cuckfield Park . We have always maintained our property and land in keeping with its Historic importance and this proposed development makes a mockery of this.

I also wish to reiterate my previous objection to the proposed Housing Estate at Ansty .

Yours sincerely
