Please identify the tree(s) and provide a full and clear specification of the works you want to carry out	Removal of small tree at front of property. Think it is a prunus. Flowers in March for about a week, no fruit. It has never been happy - was planted too close to garage by previous resident and our survey warned of risk of subsidence. Reason for removal: We would like to replace our oil tank but keep it near the existing tank. We've been advised that to do so and comply with current oil tank regulations we'd need to move it by about 1.5metres, and the tree would need to be removed to fit the tank in. We have flowering shrubs on our fence and would add to these to screen new tank.
