MID SUSSEX DISTRICT COUNCIL

DM/25/2410

**9 The Crescent, Hassocks, West Sussex, BN6 8RB, , ,
Replacement of two windows to side elevation
Mr And Mrs Wilsdon**

SUMMARY OF REPRESENTATIONS

None received.

SUMMARY OF CONSULTEES

None received.

PARISH COUNCIL OBSERVATIONS

Recommend permission is granted.

INTRODUCTION

Planning permission is sought for the replacement of 2 no. windows to the side elevation.

RELEVANT PLANNING HISTORY

No relevant planning history.

SITE AND SURROUNDINGS

9 The Crescent is a three-storey semi-detached property. It is constructed of red brick and is characterised by white timber and white upvc windows, cream render walls and a pantile roof.

The property lies within the built-up area boundary of Hassocks and is within the setting of St Cosmas and St Damian Church and is within the Keymer Conservation Area. Neighbouring properties are to the east and west. Highways is the south.

APPLICATION DETAILS

The application seeks planning permission to replace 2 no. existing white upvc windows on the side (eastern) elevation with white upvc windows.

LEGAL FRAMEWORK AND LIST OF POLICIES

Planning legislation holds that the determination of a planning application shall be made in accordance with the Development Plan unless material considerations indicate otherwise.

Using this as the starting point the development plan for this part of Mid Sussex consists of the District Plan, Site Allocation Development Plan Document (DPD) and Hassocks Neighbourhood Plan.

National policy (which is contained in the National Planning Policy Framework and National Planning Policy Guidance) does not form part of the development plan, but is an important material consideration.

Mid Sussex District Plan

The District Plan was adopted at Full Council on 28th March 2018.

Relevant policies:

DP26 - Character and Design

DP34 - Listed Buildings and Other Heritage Assets

DP35 - Conservation Area

Site Allocations DPD

The SADPD was adopted on 29th June 2022. It allocates sufficient housing and employment land to meet identified needs to 2031.

No relevant policies

Neighbourhood Plan

Hassocks Neighbourhood Plan made in 2020.

Relevant policies:

Policy 7 - Development in Conservation Areas

Policy 9 - Character and Design

Other legislation

Planning (Listed Buildings and Conservation Areas) Act 1990

Other Material Considerations

Mid Sussex District Plan 2021 - 2039 - Submission Draft (Regulation 19)

The District Council is reviewing and updating the District Plan. Upon adoption, the new District Plan 2021 - 2039 will replace the current District Plan 2014-2031 and its policies will have full weight. In accordance with the NPPF, Local Planning Authorities may give weight to relevant policies of the emerging plan according to the stage of preparation; the extent to which there are unresolved objections to the relevant policies; and the degree of consistency of the relevant policies in the emerging plan to the NPPF. The draft District Plan 2021-2039 (Regulation 19) is currently at Examination and the stage 1 hearings were concluded on the 31st October 2024. There are unresolved objections to some of the Policies in the draft District Plan and as such, only minimal weight can be given to the Plan and this planning application has been assessed against the policies of the adopted District Plan.

Relevant policies:

DPS2 - Sustainable Design and Construction

DPB1 - Character and Design

DPB2 - Listed Buildings and Other Heritage Assets

DPB3 - Conservation Areas

Mid Sussex Design Guide Supplementary Planning Document (SPD)

The Council has adopted a 'Mid Sussex Design Guide' SPD that aims to help deliver high quality development across the district that responds appropriately to its context and is inclusive and sustainable. The Design Guide was adopted by Council on 4th November 2020 as an SPD for use in the consideration and determination of planning applications. The SPD is a material consideration in the determination of planning applications.

National Planning Policy Framework (NPPF) (December 2024)

ASSESSMENT

It is considered that the main issues that need to be considered in the determination of this application are as follows;

- Design and Impact on the Conservation Area and setting of a Listed Building
- Neighbouring amenity
- Biodiversity Net Gain

Design and Impact on the Conservation Area and setting of a Listed Building

S.66 (1) of the Planning (Listed Buildings and Conservation Areas) Act 1990 states:

'In considering whether to grant planning permission for development which affects a listed building or its setting, the local planning authority or, as the case may be, the Secretary of State shall have special regard to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses.'

S.72 (1) of the Planning (Listed Buildings and Conservation Areas) Act 1990 states:

'In the exercise, with respect to any buildings or other land in a conservation area, of any powers under any of the provisions mentioned in subsection (2), special attention shall be paid to the desirability of preserving or enhancing the character or appearance of that area.'

Policy DP34 of the District Plan is relevant and states:

'Development will be required to protect listed buildings and their settings. This will be achieved by ensuring that:

- o A thorough understanding of the significance of the listed building and its setting has been demonstrated. This will be proportionate to the importance of the building and potential impact of the proposal;*
- o Alterations or extensions to a listed building respect its historic form, scale, setting, significance and fabric. Proposals for the conversion or change of use of a listed building retain its significance and character whilst ensuring that the building remains in a viable use;*
- o Traditional building materials and construction techniques are normally used. The installation of uPVC windows and doors will not be acceptable;*
- o Satellite antennae, solar panels or other renewable energy installations are not sited in a prominent location, and where possible within the curtilage rather than on the building itself;*
- o Special regard is given to protecting the setting of a listed building;*
- o Where the historic fabric of a building may be affected by alterations or other proposals, the applicant is expected to fund the recording or exploratory opening up of historic fabric.'*

Mid Sussex District Plan policy DP35 states:

'Development in a conservation area will be required to conserve or enhance its special character, appearance and the range of activities which contribute to it. This will be achieved by ensuring that:

- o New buildings and extensions are sensitively designed to reflect the special characteristics of the area in terms of their scale, density, design and through the use of complementary materials;*
- o Open spaces, gardens, landscaping and boundary features that contribute to the special character of the area are protected. Any new landscaping or boundary features are designed to reflect that character;*
- o Traditional shop fronts that are a key feature of the conservation area are protected. Any alterations to shopfronts in a conservation area will only be permitted where they do not result in the loss of a traditional shopfront and the new design is sympathetic to the character of the existing building and street scene in which it is located;*
- o Existing buildings that contribute to the character of the conservation area are protected. Where demolition is permitted, the replacement buildings are of a design that reflects the special characteristics of the area;*
- o Activities such as markets, crafts or other activities which contribute to the special character and appearance of the conservation area are supported;*
- o New pavements, roads and other surfaces reflect the materials and scale of the existing streets and surfaces in the conservation area.*

Development will also protect the setting of the conservation area and in particular views into and out of the area. New buildings of outstanding or innovative design may be acceptable in conservation areas provided that their impact would not cause material harm to the area.'

With regards to design, policy DP26 of the Mid Sussex District Plan states:

'All development and surrounding spaces, including alterations and extensions to existing buildings and replacement dwellings, will be well designed and reflect the distinctive character of the towns and villages while being sensitive to the countryside. All applicants will be required to demonstrate that development:

- o is of high quality design and layout and includes appropriate landscaping and greenspace;*
- o contributes positively to, and clearly defines, public and private realms and should normally be designed with active building frontages facing streets and public open spaces to animate and provide natural surveillance;*
- o creates a sense of place while addressing the character and scale of the surrounding buildings and landscape;*
- o protects open spaces, trees and gardens that contribute to the character of the area;*
- o protects valued townscapes and the separate identity and character of towns and villages;*
- o does not cause significant harm to the amenities of existing nearby residents and future occupants of new dwellings, including taking account of the impact on privacy, outlook, daylight and sunlight, and noise, air and light pollution (see Policy DP27);*
- o creates a pedestrian-friendly layout that is safe, well connected, legible and accessible;*
- o incorporates well integrated parking that does not dominate the street environment, particularly where high density housing is proposed;*
- o positively addresses sustainability considerations in the layout and the building design;*
- o take the opportunity to encourage community interaction by creating layouts with a strong neighbourhood focus/centre; larger (300+ unit) schemes will also normally be expected to incorporate a mixed use element;*
- o optimises the potential of the site to accommodate development.'*

Policy 9 of the Hassocks Neighbourhood Plan relates to Character and Design and states that:

'Development proposals will be supported where they have regard to the Hassocks Townscape Appraisal, and where their character and design takes account of the following design principles as appropriate to the nature, scale and location of the particular proposal: 1. Is of high quality design and layout;

- 2. Contributes positively to the private and public realm to create a sense of place;*
- 3. Respects the character and scale of the surrounding buildings and landscape;*
- 4. Protects open spaces and gardens that contribute to the character of the area;*
- 5. Protects valued townscapes and the separate identity and character of Hassocks, Keymer and Clayton;*
- 6. Does not cause unacceptable harm to the amenities of existing nearby residents and future occupants of new dwellings, including taking account of the impact on privacy, outlook, daylight, sunlight and security;*
- 7. Creates safe, accessible and well connected environments;*
- 8. Protects existing landscape features and contributes to the village's Green Infrastructure network;*
- 9. Incorporates the use of local materials which are appropriate to the defined Local Townscape Character Area; and*
- 10. Positively responds to the local vernacular character of the defined Local Townscape Character Area.'*

Paras 203, 205-208 of the NPPF state:

'203. In determining applications, local planning authorities should take account of:

- a) the desirability of sustaining and enhancing the significance of heritage assets and putting them to viable uses consistent with their conservation;*
- b) the positive contribution that conservation of heritage assets can make to sustainable communities including their economic vitality; and*
- c) the desirability of new development making a positive contribution to local character and distinctiveness.*

205. When considering the impact of a proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation (and the more important the asset, the greater the weight should be). This is irrespective of whether any potential harm amounts to substantial harm, total loss or less than substantial harm to its significance.

206. Any harm to, or loss of, the significance of a designated heritage asset (from its alteration or destruction, or from development within its setting), should require clear and convincing justification.

Substantial harm to or loss of:

- a) grade II listed buildings, or grade II registered parks or gardens, should be exceptional;*
- b) assets of the highest significance, notably scheduled monuments, protected wreck sites, registered battlefields, grade I and II* listed buildings, grade I and II* registered parks and gardens, and World Heritage Sites, should be wholly exceptional.*

207. Where a proposed development will lead to substantial harm to (or total loss of significance of) a designated heritage asset, local planning authorities should refuse consent, unless it can be demonstrated that the substantial harm or total loss is necessary to achieve substantial public benefits that outweigh that harm or loss, or all of the following apply:

- a) the nature of the heritage asset prevents all reasonable uses of the site; and*
- b) no viable use of the heritage asset itself can be found in the medium term through appropriate marketing that will enable its conservation; and*
- c) conservation by grant-funding or some form of not for profit, charitable or public ownership is demonstrably not possible; and*

d) the harm or loss is outweighed by the benefit of bringing the site back into use.

208. Where a development proposal will lead to less than substantial harm to the significance of a designated heritage asset, this harm should be weighed against the public benefits of the proposal including, where appropriate, securing its optimum viable use.'

It is considered that the proposed windows are an appropriate design, form and scale to the existing dwellinghouse, whereby a mixture of timber sash windows and upvc windows are present. The proposed windows would match the glazing pattern of the existing windows and would therefore create a uniform and cohesive appearance to the dwellinghouse.

In light of the above, the proposed windows are considered in keeping with the existing dwellinghouse in terms of design, form and scale and should not be harmful to the appearance and character of the area. The proposed works would have no impact on the setting of the listed Church to the west.

The proposal is therefore considered to preserve the appearance and character of the conservation area. The proposal therefore accords with policies DP26 and DP35 of the Mid Sussex District Plan and policy 9 of the Hassocks Neighbourhood Plan.

Neighbouring amenity

Policy DP26 of the District Plan refers to amenity and states that development proposals should '*not cause significant harm to the amenities of existing nearby residents and future occupants of new dwellings, including taking account of the impact on privacy, outlook, daylight and sunlight, and noise, air and light pollution*'.

To the east is no. 11 The Crescent. The proposed windows would replace the existing windows on the side elevation at second floor level. Given that the proposed windows would be similar to the existing arrangement, it is not considered that the proposal would give rise to significant overlooking concerns.

The proposal therefore accords with policy DP26 of the District Plan.

Biodiversity Net Gain

Biodiversity net gain is required under a statutory framework introduced by Schedule 7A of the Town and Country Planning Act 1990. This is a householder application within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015. As a householder application this development is exempt from the requirement to provide biodiversity net gain.

PLANNING BALANCE AND CONCLUSION

The proposed works are deemed acceptable in terms of design and form to the existing dwellinghouse and surrounding properties and should preserve the appearance and character of the area.

The proposal therefore accords with policies DP26, DP34 and DP35 of the Mid Sussex District Plan, policies 7 and 9 of the Hassocks Neighbourhood Plan and relevant paragraphs of the NPPF.

Decision: Permission
