Comments Details

Commenter Type: Neighbour or general public

Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: I am very much in favour of this application for many reasons. This helps the diversity of the housing market. It's an affordable option for the local community. This should be supported by the planning department for people to get on the housing ladder. To have this opportunity to be on a small self build development is a rare and innovative solution. I believe this needs to be executed to be delivered to the community, to give people the chance to adopt this with the current housing situation. Locally we are being surrounded by large new estates. To have a

plot with a handful of self built houses would be a good opportunity and practical solution.

Kind regards
