Tree Location

Tree Location	
Do all trees stand at the applicant address?	Yes
Full address/location of the site where the tree(s) stand	
Location Description	

Ownership of Trees

Label	
Is the applicant the owner of the trees?	No
Owner Details	
First name	Anchor Hanover Group
Last name	Anchor Hanover Group
Phone number	07960145200
Email address	jacqueline.parton@anchor.org.uk
Address	

TPO Details

Further Details	
Are you seeking consent for works to tree(s) subject to TPO	Yes
Are you wishing to carry out works to tree(s) in a conservation area?	No
If you know which TPO protects the tree (s), enter its title or number	HH/01/TPO/96 and CU/14/TPO/85
Please identify the tree(s) and provide a full and clear specification of the works you want to carry out	To pollard and trim the back side off the first Lime tree (HH/01/TPO/96 T1) facing the flats only back to a safe point on the branches to allow the tree to grow back naturally. Roughly taking it back 50% as they currently overhang the garden and are heading towards the flats (please see diagram). It also blocks out nearly all of the light to the back of the flats and has turned the lawn into a moss garden. It is also causing the gutters and roof valleys to block which has recently, this winter, caused leaks and damp issues. To pollard and trim the back side off the second Lime tree (HH/01/TPO/96 T2) facing the flats only back to a safe point on the branches to allow the tree to grow back naturally. Roughly taking it back 50% as they currently overhang the garden and are heading towards the flats (please see diagram). Pollard the third Lime tree (CU/14/TPO/85 T3) back to previous knuckles formed by past pollarding. This would reduce the overall size of the tree by 40% but not taking off any large wood, only re-growth.

Additional Information

ADDITIONAL INFORMATION	
For all trees	

Sketch plan clearly showing the position of trees listed in the previous question	20250310_220858.jpg (download)
For works to trees covered by TPO
