Subject: Concern of proposal DM/25/2478

[REDACTED]

To relevant case officer and council planning officers,

My email is written on behalf of my concern of the proposal of development on Wealden way for the erection of a property and garage.

The proposed site of the development forms part of a beautiful green area and natural pond and stream which supports a variety of local wildlife. The loss of this will have significant and irreversible consequences on the character and wildlife of the area.

Additionally, The site would create disturbance to our quiet residential nature of our road. It's likely to increase traffic, reduce availability of parking and affect accessibility for residents of our road.

I therefore urge the planning team to carefully consider the environmental and community impact of the development on Wealden way and surroundings.

Thank you for taking the time to review my concerns.

Kind regards,

[REDACTED]
