Subject: DM/25/2478 - Building a house on land adjacent to Wealden Way. RH164DD

[REDACTED]
F.AO. Caroline Grist

We wish to object to the building of this dwelling as it will complete destroy the natural flora and fauna around the pond area. It will disturb the ducks, geese,coots and moorhens that regularly are seen on the pond. The felling of the trees to build the dwelling will destroy the habitat of the local bird life including birds of prey which are frequently seen circling. It will also cause residents additional problems parking their cars down Wealden Way as there would be less kerbside , due to the entrance to the dewelling. We also have to contend with commuters parking down this end of Wealden Way now.

Please do not agree to this.

Regards
