Reasons for comment:

Comments: This project should never have gone ahead in the first place without it's own access road and infrastructure. Those of us that have lived in the area suffer from frequent power and water issues as it is let alone without adding over 100 house to the end of a cul de sac. If proper infrastructure and thought was put in place then the locals wouldn't be so against it. Access road, own power supply, own water source. End of.

Kind regards
