Comments Details

Commenter Type: Neighbour or general public

Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: I object to the amendment, as the installation solar was one of the conditions of the development going ahead. Backtracking on this commitment after approval has been granted smacks of cynical profiteering, with no regard to the wider consequences for the village or more broadly, for the environment. The power supply to the existing properties and businesses in the area is already stretched, a situation that will be materially worsened if amendments to this condition are granted.

Kind regards
