Reasons for comment:	
Comments:	Object at the moment. You have provided no information regards to these things. My house is situated right on top of the cemetery and if they are placed right in full view of my home, it will potentially make my house unsellable. How tall are they? Where will they be situated and where is the path going? The link provides no additional information. Pictures, maps etc. Would be useful. Maybe you have added these to the website but I can't see them. Please advise. Also how long will the

work take to complete, what will they even look like... all really helpful detail when advising homeowners what you are proposing.

Kind regards
