Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I believe the new mast is a positive impact for the town, with several networks still receiving less than optimal signal in the area. The effects of the wavelengths produced by these antennas have been scientifically proven to have little to no harmful effects on humans in the short and long term, and the mast is not in an area that would diminish the natural beauty of the area.

Kind regards
