Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: I object to the amended plans for the unit to be used as residential dwellings due to the skylight which will produce light pollution. The skylight directly faces my garden and home. The 900mm square skylight is 3M from my boundary and will illuminate my garden, bathroom and rear bedroom.

Previously approved plans for residential dwellings did not have any windows or skylights above ground floor level and would not have produced the light pollution.

The skylight was added to plans this summer provisionally provided by the applicant for use as a commercial unit and I do not believe it is appropriate for a residential dwelling overlooking and light polluting neighbours homes and gardens.

If the skylight was removed from the plans I would not object to the proposal.

Kind regards
