Lighting Assessment

The following signage items to be internally illuminated with static illumination, unless stated otherwise

- 1 off internally illuminated LED 6500k daylight post sign @ 160 Cd per M2 (Sign A)
- 1 off internally illuminated LED 6500k daylight 160 Cd per M2 (Sign B)
- 1 off internally illuminated LED 6500k daylight 160 Cd per M2, with external red LED strip downlight (Sign C)
- 1 off non illuminated fascia sign (Sign D)
- 1 off internally illuminated LED 6500K daylight welcome sign 160 Cd per M2 (Sign E)

This is ensuring illumination of the signs but not disturb the surroundings with the ampere at 6.24×10^{-18} electrons. No lights are to be emitted above the horizontal plane.

The signage is being installed as part of a new development in the area giving it a fresh but conservative look.

Should you require any further information please do not hesitate to contact me on the following details.

Yours faithfully
