[REDACTED]
Dear Jessica

I write to object to the above application. I have lived next to the applicants for 11 years. In the last year, my peaceful enjoyment of my property has been affected by [REDACTED]

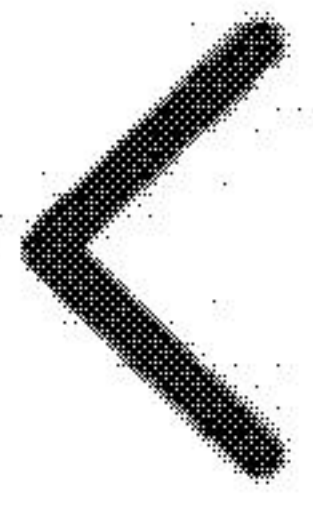

[REDACTED]

[REDACTED]

[REDACTED] works as a plumber and does not need the aerial at his property. It massively sways in the wind and is at risk of damaging my property and landing on the main Turners Hill Road (a B Road). This is a serious safety risk and it is double the height of his house. Indeed, my house has been extended into the roof space and the aerial is significantly taller than my house (attached).

[REDACTED] does not need the aerial, it is a safety risk to the highway and my property and I believe it interferes with the signal within my own home.
