Dear Mark

I have been contacted by NatureSpace regarding the above planning application. You may be aware that the Council holds a district-wide licence granted by Natural England allowing developers to be authorised to undertake works which may impact great crested newts. NatureSpace Partnership is the Council's delivery partner for the district licence.

NatureSpace have advised that they would like to comment on the planning application.

NatureSpace have asked if you have any photographs of the stream that runs through the site. They would like to see some photos of this to confirm the current condition.

Is this something that you have available?

Regards
