Aldi - Hayward Heath - Application Reference: DM/24/3077

Dear Officer,

Application Ref: DM/24/3077

I am writing to submit my comments in support of a new Aldi store in Haywards Heath.

This application would deliver a number of benefits to the local area, including:

- Significant investment into the local economy

- This will provide added competition to the two existing local Supermarket which are amongst the most expensive in the Southeast. It is important to provide residents with a varied and affordable choice to cater for all. The siting of this Supermarket will not result in the loss of any amenities and will bring some additional vibrancy to Commercial Square, The Council already has plans to develop the Square and this will dovetail nicely with this and help make the area an integral part of the Town which at present is very much a Town of two halves. I strongly support the application.

I hope that the council will act in the interests of local people by approving this application.

Kind regards
