Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	We fully support the application to reduce the tree. We do however request that more than 1-2 metres be removed in certain areas on two grounds: 1 - the tree significantly overhangs into our garden and the acorns that drop from it are poisonous to our dogs and can cause severe organ damage. Despite our best efforts to pick up acorns that drop, it is impossible due to the quantity and frequency of falling acorns. We request at least 3 metres of clearance from the leaves to our boundary to account for acorns dropping and future growth. 2 - loss of light. When populated with leaves, the tree blocks all direct sunlight from entering our property until at least midday. We

request that all branches/twigs on that side of the tree be cut back to the limbs to allow light into our property and garden.

Kind regards
