You don't often get email from kentbengtsson0@gmail.com. [Learn why this is important](#)

To whom it may concern,

As a nearby resident I object to the application, first and foremost for the proposed access from 9 - 11 Woodland close, as this is unnecessary and unfair to the residents of the close.

It is unnecessary as the field can be accessed without any demolition from Bramble Way/Sycamore Lane. It can also be accessed from Hornbeam place.

Personally I rather not see this estate being built, as school and surgery seem to be battling with the population of the village as it is. I would think it would be better to use the land for about 6 large homes with larger gardens, that would be accessed from Burleigh Lane, as this kinds of homes would be in keeping with the existing housing in Burleigh Lane. This would still allow the landowner to make some income from that land, without much of an increase in the traffic, population, sewage, water, etc.

That is all I have to say on this.
