Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I am writing to object to the proposed loft conversion submitted by 5 Alder Way. Their back garden directly backs on to my back garden. At present, from the back of my house, my entire patio and half of my garden I have a direct view of their rear roof. I note that the proposed loft conversion includes 2 dormer windows on this rear roof that would directly overlook the entire back of my house, my entire patio and half my garden, despite the tree line that I have erected in front of our dividing fence. This means that from these two proposed windows, they would be able to see into the rear of my house and most of my garden. This would be a direct invasion of privacy. I note that there are already single
-----------	---

windows of two other neighbours that partially overlook my garden, however, these existed when I bought my property and I knew beforehand of these views, neither of which can look into my house.

The design of 5 Alder Way is exactly the same as that of my house, except it is a complete mirror image. As a large 5 bedroom property, there is ample room for 2 adults and 2 children, as both my family and the Dennetts have. An additional 2 bedroom loft conversion with en suite facilities is entirely unnecessary addition to our already substantial living space.

Kind regards
