Categories: Tom

Hi Tom

We will be reducing the height of them back to where they have been done previously, these are the highway trees.

This will roughly be 8 metres, no thinning or crown lifting. Just a reduction

Thanks
Miles

Hi Miles

Here is what the description looks like currently:

“T1, T22, T23 and T24 - cut back to previous cut points, apex 2m. T2 to T21 and T25 to T26 –“

I presume you do not want to do Crown Thinning of 50%? If you want to Reduce the Crown or do a Crown Lift, this has to be specified in meters, example “reduce crown by 2-3 meters”.

If you can clarify this last point, I can get the app validated

Best regards,

Subject: MC Trees - Tree works application DM/25/0703

Hi tom

Here are the amendments to the tree works application for Applegarth in Hurst.

Apologies, Emily is the applicant and owner of the property.

We will be reducing all of the trees by 50% apart from T1, T22, T23 and T24 which will be reduced to where they have been cut previously (2 Metre reduction) .

I have also submitted a new sketch labelling with a key the proposed trees more accurately please do let me know if this is ok.

Kind regards

Miles Collins
