Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I support this and the associated application wholeheartedly. The works which Mr and Mrs Dougal have done have been in the best interests of the house the village and the conservation area as a whole. The building was allowed to deteriorate deplorably by the previous owner and the renovation has restored this property in a sensitive sympathetic manner it is now a credit to the village. The materials used are of the highest calibre and are eminently suitable for a listed building and will ensure the integrity of the property for very many years to come.

The landscaping and the works to the rear of the property enhance the listed building and the conservation area.
The works as a whole, either by scale or impact have no detrimental effect on my house or the neighbourhood as a whole. Indeed the opposite the works have improved the conservation area.
The works by their exceptional quality and sensitivity have enhanced the listed building and the neighbourhood.
There is no reason why consent should not be granted

Kind regards
