Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

- ☐ Yes
- ☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply: Self-build and custom build development Are you building more than nine houses?: No Is the total size over 0.5 hectares?: No Do all buildings meet the definition of self-build or custom housebuilding as set out in section 1(A1) of the Self-build and Custom Housebuilding Act 2015?: Yes Does your Local Planning Authority require applicants for self-build and custom-build development to evidence their eligibility?: Yes Please justify the reason why biodiversity net gain does not apply: Exemption as a Self Builder on a site less than 0.5 Ha

Note: Please read the help text for further information why developments may be exempt or not in scope.

"In my opinion the proposed conversion of the existing stone barn and the attached timber barn into a new independent dwelling could be supported under existing planning policies, subject to revisions to the details of the preapplication scheme."

A further pre-application was submitted in March 2026 (DM/26/0720) in response to some officer feedback on our initial proposals. Response from Hamish Evans email 29th May 2026 confirmed most items addressed. Further revisions have since been made to proposed extension and window openings to address remaining feedback from conservation officer.
