Dear Sir/Madam,

Proposal: Change of use of former ground floor fast food takeaway restaurant to residential use to create 1 no. 1 bedroom flat.

Site: Chutney and Grill, 32 Railway Approach, East Grinstead, West Sussex, RH19 1BP.

Thank you for your correspondence, please see our comments below regarding the above application.

Development Site is not within Southern Water's Water Supply Area

The development site is not located within Southern Water's statutory area for water supply services. Please contact South East Water, who are the relevant statutory undertaker.

Insufficient Information provided

Condition

Construction of the development shall not commence until details of the proposed means of foul/surface water drainage disposal have been submitted to, and approved in writing by the Local Planning Authority in consultation with Southern Water.

Surface water discharge to Foul/Combined Network

Discharging to FOUL SEWER

Southern Water will refuse any request to discharge surface water into our 'foul only' sewer network. This includes where the surface water hierarchy has been followed and all alternative options have been exhausted. This approach ensures that we work together to better protect the environment, improve water quality, and reduce flood risk. It also supports our work to separate rainwater from sewage at source to meet storm overflow reduction targets under Defra's Storm Overflows Discharge

Reduction Plan, as well as to reduce the number of sewer flooding incidents that are caused by hydraulic overload of our sewer network during periods of sustained rainfall.

The above is supported by our Surface Water Management Policy, which is available to view on our website. It is also supported by the National standards for sustainable drainage systems (SuDS) - GOV.UK which states the following in Paragraph 1.10 - Surface water runoff from the development shall not discharge to a foul drainage system.

Condition

Southern Water does not accept surface water flows into the foul network. Please refer to the Surface water management

<https://www.southernwater.co.uk/media/l23dbon0/surface-water-management-policy-120724.pdf>

Existing Southern Water Assets – General within boundary but no tree, buildings, assets within standoff distance (approximate)

Please see the attached extract from Southern Water records showing the approximate position of our existing sewer and water main assets crossing/in the vicinity of the development site. The exact position of the public assets must be determined on site by the applicant in consultation with Southern Water before the layout of the proposed development is finalised. To get in contact to confirm the exact position of the asset please visit;

https://www.southernwater.co.uk/media/ph4fk3pe/ds-location-of-rising-mains_pb.pdf.

For information on required stand-off distances from public sewers please refer to:

<https://www.southernwater.co.uk/media/st5orjvm/stand-off-distances.pdf>

S106 Connection application

Any new connections to the public sewerage system will require a Section 106 connection application to be submitted and approved by Southern Water Services.

To make an application visit Southern Water's Get Connected service:

<https://developerservices.southernwater.co.uk> and please read our New Connections Charging Arrangements documents which are available on our website via the following link:

<https://www.southernwater.co.uk/developing-building/connection-charging-arrangements>

Please note that, where there are separate systems available, Southern Water will not allow surface water to connect into the public foul sewer. If this is not possible, please provide evidence that all other options have been explored.

Due to legislative changes effective from 1st October 2011 regarding the ownership of sewers, it is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction work, an investigation of the sewer will be required to ascertain its ownership before any work commences on site. If this happens, please call our Customer Service Desk on 0330 303 0119.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119)
