Re: Koa Cabins.

To whom it may concern:

I am happy to confirm that Mark and Chantelle of KOA Cabins have been valued users of the Inn Style property management system for several years.

From our records, I can see that their account was created in February 2024.

Their property is set up to provide short-term nightly accommodation and consistently operates as a professional holiday let business. It is a pleasure to work with them facilitating online reservations through our platform.

We wish them continued success.

Best wishes,
