Reasons for comment:	
Comments:	These woods are a hub for wildlife, fauna and community. The destroying of this habitat will mean the death of many. This is a wonderful open space to have in the area to walk dogs and be social in a small area of countryside that is slowly diminishing around the area. We need to preserve the environment. Where are the children going to go to school? Harlands is already oversubscribed. What doctors? Dentists? The town is going to be overrun by even more cars. Pollution? Don't even mention that water crisis that southeast water isn't investing in sorting out.

Everyone knows all this but money and power appears to be the only thing people really care about.

Kind regards
