Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	The local area already has stretched services and infrastructure. There are no new doctors, dentists, schools or parking proposed with these new houses. No new developments should be allowed without additional services and infrastructure being included in the development. Adding more housing without services is at the detriment to all residents in the area due to the pressure on vital services. We must also protect the green spaces around us for children and

the public to enjoy. Playing/ walking outside in green spaces has benefits for mental and physical well-being for people of all ages.

Kind regards
