Hi Tom,

Thank you for your response. The scale should be 1 : 50

Kind regards

Kate

Hi Kate

Divya is off sick at the moment. What is the scale on the Signage Elevation meant to be?

Many thanks
Tom

You don't often get email from practicemanager@burgesshilldental.co.uk. [Learn why this is important](#)

Hi Divya,

Many thanks for your help on the telephone earlier this week.

To confirm a few details:

1. We have decided not to go ahead with the round sign protruding from the side of the building. Therefore we only require permission for 2 signs – the illuminated monolith at the front of the building and the wall sign on the side of the building.
2. I have added the side wall sign to the site plan – see attached.
3. Planning Statement – I have updated this to reflect our request for permission for just 2 signs
4. Elevation Plan – the scale on our original drawing is correct. Unfortunately when scanning the document the scale is not maintained. I have therefore removed the scale altogether as I believe this is not an essential requirement on the elevations plans. However if you do require this, I can send the original by post. Please confirm if you would like me to do this.

I believe this covers all the points required to complete our planning application. I would be grateful if you could please confirm all is now in order.

Kind regards

Kate

Dear Kate,

Thank you for your email and the attachments.

Please represent all the 3 signs proposed in the plans. It also appears that the scale measurement on elevation plan is incorrect.

Please resubmit the plans.

Kind Regards
Divya

Good morning,

Further to your letter of 30th January addressed to Henry Duckham, please find attached additional documentation requested.

Please confirm you now have all that you require to progress with our application.

Many thanks

Kind regards

Kate
