Please identify the tree(s) and provide a full and clear specification of the works you want to carry out	A large Grey Willow grows in our back garden (and orchard) in close proximity to two neighbours gardens. It grows very quickly. We have had complaints from the neighbours to the rear that the tree is encroaching on their property and affecting their quality of life. The tree is also now impacting on trees in the orchard (a damson and apple). We would like to remove the tree. Reducing it, given the speed with which it seems to grow, will not be effective in the medium term and I don't believe the tree has any intrinsic amenity value. We would be happy to replant a more appropriate tree if required.
