Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

This Lawful Development Certificate (LDC) application seeks to confirm that the entire rear garden of the property forms part of its lawful curtilage, as illustrated in the plans submitted under application DM/25/2161.

During their review, the planning officer identified that an earlier application (10/00913/FUL) included an incorrect and significantly smaller red-line boundary. In their view, this discrepancy necessitates formally re-establishing the correct curtilage boundary through the submission of this LDC.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

☐ Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

We confirm that the entire garden area identified in application DM/25/2161 forms part of the property's curtilage. The land has been -and is- used continuously and uniformly as garden space, is directly and physically connected to the dwelling, and functions as a single, enclosed unit. There are no intervening features such as roads, footpaths, or watercourses that would separate it from the main residence.

The garden is used exclusively by the occupants of the dwelling, wholly incidental to its residential use, and is held under the same title and ownership. As the land is already in established residential use, the notion of a "change of use" would not be applicable.

On this basis, we consider the garden to meet the established definition of curtilage. Furthermore, the Planning Portal's boundary-selection tool, derived from the OS base mapping, treats the entire garden as a single, indivisible unit, with no option to subdivide it. This provides additional support for the curtilage position.

Details of the pre-application advice received

Having reviewed this with a senior planning officer, we would require an application for a Lawful Development Certificate to be submitted to establish the current land use. We are concerned because historic aerial photographs show a much greater extent of trees in the area that the proposal affects. Once the use of the land has been established as residential curtilage, we can therefore determine the current application. This means that the current application would not need to be withdrawn.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

Interest in the Land

Please state the applicant's interest in the land
