Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This is overdevelopment at a central village location. The proposed residential flats will be overbearing on the adjacent properties and if permitted should not be more than 2 storey. The retail unit will bring in too many cars which will not be accommodated by the proposed car park which will be shared with the pub so there will be even more inconsiderate parking on

Copthorne Bank than there is already. This is a busy junction in the village so additional cars and delivery lorries will only exasperate the problem and increase the potential for accidents/highway safety issues. Traffic flow can be very congested along this road with street parking as it is without any additional vehicles using this retail unit. The additional vehicles will also significantly increase noise and disturbance for the residents surrounding this site.

The street scene will change dramatically from what is essentially an open green space in the village to a jam packed development.

The village pub should retain its large garden for the use of village families. Development companies should not be encouraged to purchase public houses with the intention of using the land for development to deprive communities of their facilities. The Prince Albert should be a thriving business with its central village location and its large sunny family garden.

Kind regards
