Subject: Havelock Farm

Hi Katherine

Comments on the above discharge of conditions application. My apologies for the delay in getting these to you, which has been caused by pressure of other work.

Condition 1: details of glass house 1

I have no objection to the detailed design of the elevation, but the fairly extensive use of plastic (plastic coated composite roofing panels, plastic cappings to aluminium glazing bars, and plastic rainwater pipes) is a concern as this is not a material I would consider appropriate to this sensitive context.

Condition 2: materials and finishes to external facings

As noted above, there is a fairly extensive use of plastic in the cappings to the glazing bars, sliding doors, rainwater goods, and coating to the roof panels. Although I note the point that this is standard to commercial glasshouses, this is not a commercial site, but a relatively high-profile project located in a highly sensitive location. I would therefore question whether this is an appropriate material and would suggest that this aspect of the proposal is reconsidered.

I have no objection to the colour palette.

Condition 5: historic building survey

The photographic survey is considered acceptable and as noted should be read alongside the previously existing drawings which formed part of the original application. This condition can be discharged.

Thanks,

Emily
