**Reasons for comment:**

Comments:

I am a resident of Hett Close. We have been waiting a long time for replacement windows and were originally told that the replacements would be UPVC. I do not understand why it is being proposed that the front windows are still being replaced with wooden frames. We have been told that it is due to being a conservation area? I would like to point out that the three houses on the right at the top of Hett Close, and the big apartment block all have UPVC frames. Also, most of the front doors from 1-10 are UPVC. Two houses, numbers 4 and 5 have already had UPVC fitted to the front and back! They look great. (Also wondering why 3 and 10 are not included in the planning?)

---

Kind regards
