Attachments: Planning 40 New Lane.pdf

Hi Anna,

Thank you for your time today and as discussed please find attached updated drawings for your decision:

Notes:

First floor side extension further reduced and ridge height also reduced

Juliet balcony removed

Protruding brickwork detail to be extended from original to new front extension

I also attach 2 images below which as I have just been informed the tree in question for the tree report was removed a few weeks ago... Does this now negate the need for a tree report?

Kind Regards

Adam Humphrey, MCIOB BSc (Hons)

Hi Adam

Thank you for your time this morning. Following on from our Teams call I can confirm that we discussed my concerns with the submitted scheme. In summary these are as follows:

-Scale of the proposed side extension – we discussed reducing the scale and lowering of the ridge height to make the addition more subordinate to the original dwelling.

-Impact of the proposal upon the neighbours amenities – proximity/height of the side addition to the boundary and windows in the side elevation of No 42. We reviewed the floor plan layout of No 42 to reveal that these windows serve a hallway and bathroom, and are not principle room windows.

-Overlooking concerns from the proposed first floor Juliette balcony, which I requested is removed.

- Request for the submission of a **Tree Report**, which is missing from the submission.

-We also talked about retaining the corbelled brickwork on the front elevation and the possible introduction of more of this on the front gabled addition.

I hope that you can review the plans with your client and make amendments to address these points.

I request your agreement by return email to an Extension of time to allow for the preparation and submission of the required Tree Report. Please tell me the possible timescale for this, once you know.

I look forward to hearing from you.

Regards

Anna

Hi Adam
Thank you for your reply.
Can I suggest we hold a Teams call at 9.30am tomorrow, if that time is convenient?
I can send on an invitation.
Regards
Anna

Hi Anna,

Mel has forwarded this to me as I am probably better placed to discuss. I am at my desk and available to chat tomorrow morning. Happy to discuss but would need to run anything by the client.

With regard to scale, the proposal is still smaller than that of both neighbours and has been thoughtfully designed to limit any impact.

Alternatively if you provide your number I can call.

Kind Regards

Dear Mel

I have tried to call you to discuss this application today, but I am unable to get an answer.

I have a number of issues with the proposed scale and design of the proposed extensions that I would welcome the opportunity to discuss with you.

I look forward to the opportunity to be able to talk with you, ideally via a Teams call, so we can share the plans for discussion.

Regards
