**Subject:** DM/25/0176 - Emergency Generator

Hi Caroline

Could I request further details please? In order to assess the likely impact upon residential amenity, I will need to know the predicted noise levels at the nearest residential properties, as well as how often and for how long the generator is likely to be used. The applicants claim it is "frequent" but I will need more specific information please.

Let me know if you want to discuss further.

Regards

Nick
