Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I strongly object to the development. The impact to the local neighbours has not been considered in the planning application. My concerns are listed below: *5 flats will have small gardens down the side of the church - all with doors. This will be horrendous if the doors are left open and the occupants play music / have the TV on. The light and noise pollution will have a huge impact on the local neighbours.

*The flats appear to be overlooking adjacent gardens for 40 and 38 Cuckfield Road, which will lead to a lack of privacy.

*Only 4 car parking places have been allocated - no provision for guests or even all flats. This seems unrealistic and implied that many residents will have to park on an already congested road. Cuckfield Road is already struggling with space for onstreet parking. It is an issue that needs addressing, especially with concerns to the children walking to and from school. It will not be safe to increase the street parking.

*The Bin store is far too small for the 12 plus bins needed. This could attract rodents as it will likely be overflowing.

*The 6 flats will add to traffic congestion and danger at the top of Cuckfield Road. There is a school at the top of the road and the safety of the children need to be considered.

Thank you for listening to our concerns regarding the safety, lack of privacy and noise and light pollution caused by this development. I support my families objections from 38 Cuckfield Road.

Kind regards
